

2017 Lunar New Year Get-Together & CME

Jointly organized by:

Date: 13 February 2017, Monday

Programme

6:00pm : Registration

6:30pm : CME programme

7:30pm : Lo-Hei and Lunar New Year Dinner

Venue: Multi-Purpose Hall, Communicable Disease Centre 1, Tan Tock Seng Hospital

CME Topic: 'Big Data' in Healthcare – Insights from information; Action from Insights

The session will provide a broad overview of 'Big Data' developments in healthcare in the region, with sharing of organizational perspectives on use and utility of big data, and an industry perspective on how can organizations optimize big data to gain insights into their business processes.

Brief Speaker Bios

Dr Jeremy Lim is Partner in Oliver Wyman's Singapore office, where he leads both the Health & Life Sciences and Public Sector practices across the Asia Pacific region. Jeremy is actively involved with the Johns Hopkins Bloomberg School of Public Health Alumni, and also served on CPHOP's Council from 2010-14.

Dr Clive Tan is currently heading the Singapore Armed Forces' Health Policy Branch and Medical Informatics Unit. Clive recently returned from WHO, where he worked in the Health Systems Division. Clive received his MPH from Johns Hopkins Bloomberg School of Public Health, and has been on the CPHOP's Council since 2016.

Mr Nawal Roy is the Founder and CEO of Holmusk, a digital health company headquartered in Singapore, focused on solving complex problems in healthcare. Holmusk is leveraging on big data to improve care for diabetics, and was recently featured for developing a holistic management app that helps people manage their diabetes better.

For planning purposes, please kindly RSVP your attendance to phom@ams.edu.sg by 26th Jan (Thursday).
