

College of Physicians, Singapore  
**ANNUAL REPORT 2019**

**PRESIDENT'S MESSAGE**

I am honoured to take over as President, College of Physicians, Singapore from Professor Chan Choong Meng who led the College from 2015 to 2019 and oversaw its growth from 864 to 1031 Fellows. At the annual College Dinner on 31 October 2019, we conferred Honorary Fellow of College of Physicians, Singapore (FCPS) on Professor Fock Kwong Ming as the eighth FCPS.

The last twelve months have seen a few major incidents that impacted the medical profession. Many Fellows from the Academy and Colleges including our own have provided feedback to Ministry of Health and Singapore Medical Council on the informed consent and disciplinary action processes. This has led to reforms which are underway. I hope Fellows from our College will step forward to improve informed consent documentation and be trained as medical expert witnesses. In the last twelve months, our College provided 29 professional opinions requested by Ministry of Health and Health Science Authority, and 8 expert opinions for complaint committees under Singapore Medical Council. With contribution from our College Fellows, we can do more.

Since 22 January 2020, SARS-coronavirus-2 has reached and spread in Singapore. Many of us have been affected in one way or another. The Chapter of Infectious Disease Physicians organised a webinar that was broadcast on 3 occasions watched by 1470 unique participants, of whom 651 were Fellows. Notably, the Medicine Review Course in 2019 was attended by the highest number of participants at 430. Our College can continue to avail of technology to deliver high continuing medical education to our Fellows during this novel coronavirus outbreak.

The Academy and College can be made relevant to our Fellows. This will need our collective effort in professional advocacy and continuing medical education, some of which are highlighted above.

## ABOUT US
