

## College of Physicians, Singapore **ANNUAL REPORT 2018**

### **PRESIDENT'S MESSAGE**

On behalf of the Council, I would like to welcome the 61 new members who joined the College in 2018. We will continue to encourage more specialists to join our fraternity so that we may remain as a representative body in professional issues.

We had a successful 10<sup>th</sup> Medicine Review Course (MRC) held at LKC School of Medicine (Novena Campus) on 21 to 22 July 2018, attracting 301 participants and gathering strong supports from various pharmaceutical companies. The College has, since 2009, been holding the MRC annually as its major education event. I would like to record my heartfelt thanks to Dr Mark Chan Peng Chew and his organising committee for the hard work in putting together the programme.

The College held its dinner on 17 September 2018 in conjunction of the 28<sup>th</sup> Seah Cheng Siang Memorial Lecture and 15<sup>th</sup> College of Physicians Lecture at Grand Copthorne Waterfront Hotel, which recorded an attendance of 250 healthcare professionals. I would like to thank Dr Manju Chandran for her efforts in putting together the programme, as well as our two esteemed speakers, Prof Cyrus Cooper and A/Prof Toh Han Chong, for their inspiring talks at the dinner.

Moving into 2019, I will be stepping down as the College President and A/Prof David Lye Chien Boon would take over my role. I like to record my heartfelt appreciation to the Council and Fellows for their tremendous support in our activities all these years. We will continue to work on our signature activities and new initiatives to ensure relevancy among our members.

## EDUCATION AND TRAINING

### Maintenance of Competency: Self-Learning Modules

Under the new proposed maintenance of competency framework, the Singapore Medical Council CME Coordinating Committee has tasked the Academy of Medicine, Singapore with the mandate to administer and operationalise the new Category 5 specialty-specific Self Learning Module (SLM) for all accredited specialists. SLM aims to keep practising clinicians up-to-date in their accredited specialty/ subspecialty.

The fifteen Chapters and one Section under the College each contributed a SLM launched on 8 May 2018 with 32 specialty-specific modules and made available to members of the Academy. The SLM is currently only open to Fellows and Members of the Academy who can access the modules at their own time via the Academy's homepage.
