A SHORT COURSE ON MEETING SUPERVISION REQUIREMENTS

The proposed Standards of Provision of Electrocardiography Stress Testing will require a minimal qualification for a doctor to supervise a treadmill is as follows:

- (a) A specialist of Cardiology or Respiratory Medicine or Sports Medicine, having been accredited by the Specialist Accreditation Board; or
- (b) A Family Physician with MMed (Family Medicine), having been accredited by the Family Physicians Accreditation Board; or
- (c) Designated Medical Officer and above by the Department in all public hospitals; or
- (d) Any doctor who has completed a MOH-approved course on meeting the EST Standards

Completion of this course as indicated in (d) will help to fulfil the requirement of the physicians who does not fulfil (a) – (c)
